Our values

Our values inspire and inform all that we do:

- **Equal:** We believe in equality of opportunity for all and subscribe to the social model of disability.
- **Sharing:** We consider the sharing of knowledge and information to be one of the most powerful tools in enabling change.
- **Person-centred:** We strive to provide a high quality, tailored, person-centred service.
- **Together:** We believe in the importance of building meaningful relationships with everyone we encounter.
